STAR BREEDER PROGRAM

GIVING CONFIDENCE TO BREEDERS AND BUYERS

Seller Certification

Registered Stud and Commercial STAR Breeder Program sellers certify that each bull, heifer or mob has been:

- ✓ Vaccinated against Pestivirus (with Pestigard) to ensure they are protected from the effects of this infection
- ✓ Vaccinated against Leptospirosis (with Ultravac 7in1) a serious disease of cattle and WH&S risk for cattle handlers
- ✓ Vaccinated against Vibriosis* (with Vibrovax) a sexually transmitted cattle disease (*bulls only)
- ✓ Given two (2) vaccinations to ensure they have immunity established prior to leaving their property of origin
- ✓ Issued a STAR Breeder Program Certificate – valid for 12 months

Additionally Stud Breeders:

- ✓ Certify that each bull or heifer has been tested to show that they are not Pestivirus Persistently Infected (PI) animals.
- ✓ May also wish to certify and record on their certificates any additional vaccinations, testing or programs conducted e.g. BEF, tick fever, botulism, VBBSE or genetic testing (HD 50K, i50K, Clarifide or SireTrace)

Need help with vaccinations or the STAR Breeder website?

Zoetis has a large team of veterinarians and skilled representatives to deliver vaccine, parasiticide management, reproductive and genomic programs to best suit your management practices.

For more information talk to your **Zoetis Cattle Representative**, call **1800 963 847** or visit **www.starprogram.com.au**

Welcome to our 16th On Property Sale

Hard to believe this is our 16th annual sale but looking at the bulls we feel we have come a long way in commercial relevance, evenness, and in all profit driving traits.

We have made them into a much more British bred animal mostly homozygous poll, a more powerful and productive feedlot steer and heifer, and more efficient breeder that incorporates the advantages of hybrid vigour.

Also we have selected for a finer, earlier shedding coat that adds to the appeal.

We now have around 500 breeders in our stud that gives us a lot of selection pressure.

We still are trying North American sires but are constantly finding our home bred sires are breeding better animals for our management and environment and markets.

After a very tight winter and early spring our bulls have improved impressively quickly on better spring feed and 8 weeks on Kojonup Feeds excellent pellets

Sons and grandsons of these imported bulls are what we are using to bring in new blood.

A good example of this policy is Summit Magnum who is a Grandson of Star power IMP USA who is shaping as a once-in-a-generation sire, his brothers in this sale and his sons to come next year.

We are deliberately breeding more black Gelbvieh's to accommodate more potential buyers as they are now as good as the reds.

As we all know, we are dealing with very tough times in the cattle industry, but we believe these times will be short-lived and now is a good opportunity to improve your herds more economically and provide you with some animals that will excite you and make you smile.

The Pugh Family

Bull Information and Care

Bio Security: J-BAS 8 accredited.

Herd Health: The bulls have all been tested free of pestivirus and have been fully vaccinated with Pestigaurd, Ultravac 7in1, and Vibrovax. They have also been given Multimin and drenched in early February.

Semen Testing: Semen testing was conducted on February 13, 2024 and all bulls in the sale were deemed fertile and fit for service by the Nutrien Breeding services team.

Guarantee: All bulls offered in the sale are guaranteed to be fertile and capable of natural service at the date of sale and for a period of six months following. This guarantee does not cover injury, disease or death. The vendor retains the right to request veterinary confirmation of any claim.

Insurance: The insurance risk of animals sold at auction transfers to the purchaser at the end of the sale. This includes animals remaining at the vendor's property. Buyers are advised to insure their animals at the completion of the sale.
