STAR BREEDER PROGRAM

GIVING CONFIDENCE TO BREEDERS AND BUYERS

Seller Certification

Registered Stud and Commercial STAR Breeder Program sellers certify that each bull, heifer or mob has been:

- ✓ Vaccinated against Pestivirus (with Pestigard) to ensure they are protected from the effects of this infection
- ✓ Vaccinated against Leptospirosis (with Ultravac 7in1) a serious disease of cattle and WH&S risk for cattle handlers
- ✓ Vaccinated against Vibriosis* (with Vibrovax) a sexually transmitted cattle disease (*bulls only)
- ✓ Given two (2) vaccinations to ensure they have immunity established prior to leaving their property of origin
- ✓ Issued a STAR Breeder Program Certificate – valid for 12 months

Additionally Stud Breeders:

- ✓ Certify that each bull or heifer has been tested to show that they are not Pestivirus Persistently Infected (PI) animals.
- ✓ May also wish to certify and record on their certificates any additional vaccinations, testing or programs conducted e.g. BEF, tick fever, botulism, VBBSE or genetic testing (HD 50K, i50K, Clarifide or SireTrace)

Need help with vaccinations or the STAR Breeder website?

Zoetis has a large team of veterinarians and skilled representatives to deliver vaccine, parasiticide management, reproductive and genomic programs to best suit your management practices.

For more information talk to your **Zoetis Cattle Representative**, call **1800 963 847** or visit **www.starprogram.com.au**

Welcome to our 13th on-property Production Sale

Wow , what a different year 2020 turned out to be! After a rather a foreboding start to the year, we were so fortunate in WA and in Agriculture to recover and continue in our operations rather unaffected by the crazy happenings in the rest of the world and to a smaller degree the rest of Australia. We had a good year here at Summit Gelbvieh. After one of the driest starts on record it recovered to be an excellent winter with great finishing rains to fill those empty dams.

Earlier in 2020 we sent 228 of our 2019 steer calves (brothers to these bulls)to JBS Swift feedlot in Casino . We were fortunate enough to get the full data set from there feedlot performance along with the carcass data. The buyers were blown away by how our calves performed . They exhibited excellent growth as our genetics have demonstrated repeatedly in our own feedlot, in our previous Gate2 Plate trial cattle . The cattle Averaged 1.6kgper day over 200days. The more which was very pleasing was the calves ability to put fat on with this growth something that people have avoided going to a pure euro and have a higher marble score compared to other euro cattle. This is consistent with our breeding focus of having an easier care Gelbvieh with performance!

This year our bulls did extremely well on grass and have only been supplementary fed since early Jan. We offer 8 sons by sire Summit Brick . He is a breed leader in growth and his sons are just like him, so if you need some performance in your herd look no further than one of these bulls, he very moderate birthweight also.

If a black coat is your thing there is some great options, the Centurion sons are big growthy bulls whose brothers were among the standout performers in the JB Swift feedlot.

We hope you are pleased with the bulls we have on offer and we are sure there will be some great options for your herd.
